Survey Analysis:

[4th EULAR Online Course Imaging](#)

Total number of learners: 133

Survey format: Participants are asked to rate on how much they agree with the statement on a scale of 1 to 10; 10 being the best score.

Q7: The amount of text for this module was

Score	Percentage
Too short	2.5%
Just right	87.5%
Too long	10%

Q8: The study time estimated for this module was

Score	Percentage
Too short	2.5%
Just right	97.5%
Too long	-
Q9: What are the three best features of this module for you

WELL EXPLAINED MATERIAL
1.Easy learning 2. Best learning 3.easy understanding of outcomes of various modalities
self assessment questions interactive cases
the explanations given the images
It's practical, extensive enough for the goals intended, well organised
It is simple and easy to understand Helpful in daily practice It gave me new information
Well presented
CR as an important place in rheumatic disease Subject
1. Required knowledge provided. 2. practically oriented. 3. well pesented.
Well organized and good content, easy to assess and learn
- Conventional radiographs in RMD - Interactive Clinical Case 1 RA - Interactive Clinical Case 2 PsA
Interactive questions. Pictures with signs and arrows
- CASOS CLÍNICOS - SÍNTESIS DEL TEMA - RESUMEN DE PUNTOS CLAVES
Images Texts Clinical cases
Interesting, well organized, illustrate
ACCURACY PRACTICAL DIDACTIC
Crisp presentation of x ray in inflammatory arthritis Images in the module Summary of points learnt
-the clinical cases -well organized text -clear presentation

| |
|---|
| Systematic. However, I think it would be better to go through things in the future modules by conditions rather than imaging modalities. |
| a lot of images
case on RA
part of RA |
| the in depth discussions, the images, the interactive clinical cases |
| good, riche of information, almost well explained |
| Good pictures
Information
Cases |
| lots of imaging, interactive cases, well written |

Q10: Please give any suggestions or comments here

Needs more interactive cases
It'd be optimal to have the chance to download the different modules so as they can be revisited when required
More images Less text Better presentation without paragraphs
keep it up
SERÍA IDEAL TENER AL MENOS UNA CLASE VIRTUAL TIPO CONFERENCIA RESPECTO AL TEMA.
Really disappointed with the informatic format of the course. I spend most of time scrolling the display up and down to see text and trying to see complete images. This is really the worst part of the course, and makes it less attractive and upsetting, and comes the good scientifical quality second
Systematic. However, I think it would be better to go through things in the future modules by conditions rather than imaging modalities.
it should be with much more images
More pictures
There isn't possibility to zoom images for a closer look.

# Module 2 – Computed Tomography

Number of survey participants: 12

Q1: The module was very well organised.
Score	Percentage
10	26.32%

Score	Percentage
Too short	10.53%
Just right	78.95%
Too long	10.53%

Q9: What are the three best features of this module for you

| |
|---|
| the interactive cases
the images
videos |
| Imagines |
| concrete, clear, illustrated |
| Well organised |
| - Subjects
- graphs
- exercise |
| Good imaging |
| enough complete, enough clear, |
| to the point information,
clinically related and practically oriented features
supported by good cases. |
| The pictures are clear and helpful.
The self assessment were essential for understanding the topic.
The radiological principles were difficult ,but they helped me to understand the topic deeply. |
| Interactive cases |
| IDD1-IDD2-IDD3 |
| 1.learning of future aspects of patients dealing with rheumatological diseases is very good
2.again easy learning
3. Best learning |
| Practical, well condensed, well structured |
| A very comprehensive review of the features and uses of CT in rheumatic diseases
The images are high quality and a fine example for each situation |
| pictures, cases questions |
| VERY GOOD course |
| the quality of text and imaging, clinical cases and self assessment ; well organized |

Q10: Please give any suggestions or comments here

The content is repetitive, important points are not very clear
- improve the organization of the course with numeration of titles (1,2,3 ..)   -less text and more images exercises
you should update the topic of interstitial lung disease and rheumatoid arthritis especially from the point of view of therapy
if possible add more cases and images
To increase the number of self assessments.
Again, increase the interactive cases for learning
Availability to the contents in downloadable PDF
Some information is repeated throughout the modules and scatters it a bit. Might be difficult for future consultation
the quality of text and imaging, clinical cases and self assessment ; well organized

# Module 3 – Magnetic Resonance Imaging

Number of survey participants: 3

## Q1: The module was very well organised.
Score	Percentage

Q7: The amount of text for this module was

Score	Percentage
Too short	-
Just right	100%
Too long	-

Q8: The study time estimated for this module was

Score	Percentage
Too short	-
Just right	100%
Too long	-

Q9: What are the three best features of this module for you

Practical, well structured, provides enough information as to better understand the physiological basis of the findings
Very well organised

Q10: Please give any suggestions or comments here

It'd be desirable to have the option to download in PDF the information
