Utrecht University - Faculty of Medicine

Translational Medicine: Doing the Right Research Right - M37

This EUREKA - UMCU Summer School tackles the intrinsic difficulties of effective translational medicine in rare and orphan diseases and is meant for early stage researchers with an interest in this field. With this Summer School course you will not only obtain insight in how science really works, but more importantly, you will acquire knowledge on how to be a successful translational researcher yourself. This course is specifically not about learning how to 'play the game', but about understanding that there is a game going on, what the rules are and to be able to transcend it.

COURSE AIM

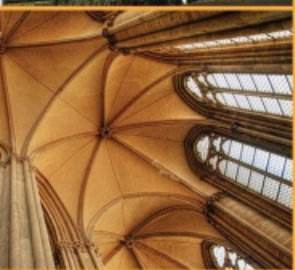

Empowerment of aspiring clinical/translational scientists through:

1. Scientific literacy: understanding how science works
2. Understanding the translational pathway
3. Improving complementary and leadership skills

TARGET AUDIENCE

Late Master, PhD students, early Post-docs and Fellows.

COURSE DIRECTOR	Prof. dr. Berent Prakken
PERIOD	12-07-2020 - 17-07-2020
CREDITS	1.5 ECTS
COURSE FEE	€ 900 Course + course materials + lunch + housing
