

EULAR Online Course on Capillaroscopy & Microcirculation

List of Modules 2025

<i>No.</i>	<i>Title</i>
01	The Microcirculation in RMDs: overview in health and disease
02	The diagnostic tools to evaluate the Microcirculation in RMDs: focus on Capillaroscopy
03	Capillaroscopy: when to perform and how to evaluate, optimise and report the results
04	Capillaroscopic patterns in systemic sclerosis: predictive indexes, links with functional methods analysing the Microcirculation and with clinical complications
05	Microcirculation and Capillaroscopy in different RMDs: the adults and the children
06A	The Microcirculation analysis by Capillaroscopy and blood flow evaluation in clinical setting of CTDs: correlations with serum biomarkers and effects of specific therapies
06B	The role of the absolute capillary number counting at the level of nailfold capillaroscopic image in scoring the severity and follow up of Systemic Sclerosis
07	Training
